

Resolution adopted by the Utah County Republican Party Central Committee on Saturday, January 23, 2016

Resolution to Remove Utah From Federal Education Control

WHEREAS, After decades of growing federal intrusion into our state education system, President Obama has signed into law The Every Student Succeeds Act (ESSA) which gives the federal government even more sweeping power over state education (1), regulates education in private schools (2) and implements policies and programs reaching into the home (3); and,

WHEREAS our platform states that “Parents have the right to choose whether a child is educated in private, public or home schools and government should not infringe on that right... We favor local accountability and control in all aspects of the education system.”; and,

WHEREAS federal taxpayers provide only a small fraction of our total education budget (4), but by accepting that sum we give the federal government 100% control over the education of our children; and,

WHEREAS, the Governor has announced that Utah now has new ongoing revenue, due to state growth of \$380 million (5), more than enough to replace federal funds and regain control over the education of our children; and,

WHEREAS, the only way to avoid the overbearing requirements of ESSA is to opt out of federal funds. (6)

NOW, THEREFORE, BE IT RESOLVED THAT the Utah County Republican Party declares that we cannot continue to stand by while our educational freedoms are usurped, and this increasing federal intrusion must end now; and,

BE IT FURTHER RESOLVED THAT Utah is not beholden to federal mandates on education as that is not in the constitutional purview of the federal government, and as such this resolution asks that the legislature and state school board nullify all federal education mandates; and,

BE IT FURTHER RESOLVED THAT Utah should withhold money that would be sent to the federal government in an amount equal to the sum they return to us each year for education and use those funds for K-12 education in this state, drop or nullify all federal education mandates, and fully fund Utah’s education programs; and,

BE IT FURTHER RESOLVED THAT if Utah is not able to make use of the previous clause, Utah should use its ongoing budget surplus to replace all federal taxpayer money in education, freeing Utah from federal intrusion; and,

BE IT FURTHER RESOLVED THAT Utah County GOP leadership shall provide information on this issue to public officials and voters, as may be appropriate through email, website, and physical distribution, and request a comprehensive legislative audit of federal programs including but not limited to those put into

place through the 2009 Stimulus Package including data systems (7), alignment to federal regulations, statutes, and grants, with the intent for determining how Utah can make a full and complete separation from federal education policies so that Utah schools can truly be freed from federal intrusion; and,

BE IT FURTHER RESOLVED THAT the Utah County Republican Party commends Representatives Chaffetz, Bishop, Stewart, and Love, and Senator Lee, who voted against this invasive law, and we call upon all state legislators and officers to act now to stand for our state's rights in education.

2013-14 is an inaccurate estimate. USOE's document has a typo on gross revenue showing \$1.3B more than expenses. This estimated revenue figure is in line with expenses which are assumed to be accurate as they are in line with the trend. We have 5 straight years of declining federal funds but no declining federal requirements. Unfunded mandates rule our state education system.
